TRIKON 2.0

... a tech triathlon

3rd-4th May | 28 Hours I AUDITORIUM-4

About TRIKON 2.0

Following the grand success of TRIKON 1.0, we aim to make TRIKON 2.0 an even bigger and more impactful experience. This 28-hour hackathon is designed to challenge participants in innovation, problem-solving, and full stack driven software and hardware development. Participants will compete in a structured three-round challenge, focusing on idea pitching, prototype development, and final presentation.

This year's event will bring together 30 teams, each consisting of 3-5 members, totaling approximately 150 participants. The event will provide an opportunity for students to explore cutting-edge technologies, enhance their technical skills, and gain hands-on experience through mentorship and competition.

Grand Launch of TRIKON 2.0

We are set to launch **TRIKON 2.0 on April 7, 2025,** on a grand scale. The launch event will set the stage for an exciting journey ahead, creating anticipation and enthusiasm among students, faculty, and industry professionals. It will serve as a platform to introduce the event structure, themes, and objectives while highlighting the immense opportunities this hackathon offers.

Event Structure:

- Venue: Audi-4, Audi-3, MIET, Meerut
- Participants: 30 teams, each consisting of 3 to 5 members, totaling approximately 150 participants.
- Hackathon Format:

    Day 1 : Initial elimination rounds, with 20 teams advancing to the next phase.
    Day 2: Final elimination round, with 10 teams competing in the ultimate pitch presentation.
    Grand prize distribution for the top three teams.

Rounds:

- VisionForge — Shape your idea, structure your plan, and lay the groundwork.
- BuildBlitz — A high-energy overnight sprint to bring your vision to life.

- Pinnacle Pitch — Present your masterpiece and claim the top spot.

Guest Invitations &Jury Panel

To elevate the stature of TRIKON 2.0, we are honored to invite esteemed dignitaries and industry leaders:

- **Inauguration Ceremony:** We will invite Arun Govil Ji and the **District Magistrate of Meerut,** as we emphasize promoting **E-Governance and technological advancements.**
- **Final Evaluation Panel:** The jury for the final evaluation will comprise five **top industry experts** from leading companies. We plan to invite:

- The Founder of GeeksforGeeks - Mr.Sandeep Jain
- The Chief Digital Officer (CDO) of Uttar Pradesh
- Tech Leaders from prominent organizations

Objective of TRIKON 2.0

For Participants:

- Develop innovative solutions and enhance pitching skills.
- Network with industry experts and like-minded peers.
- Compete, learn, and explore career opportunities.
- Converting their projects to Business Models as we are moving towards e-governance and using governmental problem statements.

For Team Intellia (MIET Students):

- Foster innovation and build a strong tech community.
- Strengthen industry connections and collaborations.
- Enhance leadership and event management skills.
- Expand TRIKON's impact as a premier hackathon.

Intellia's Growth till date:

Technical Development:

- Website Development (Development of website with react framework and hosting on go daddy with firebase as a backend)
- App Development (Development of application with college navigation and m2m planner of event)
- Automation (Sending Mails, Generating OTP, Attendance Mapping, Certificate Creation)

Non - Technical Development

- Communication Skills (Contacting Sponsors, Contacting Industrial Specialists, Contacting Government Officials)
- Management Skills (Creating events, m2m, reports, application)
- Designing Skills (creating posters, videos, animation)
- Media Skills (capturing moment of the days by media covering gadgets)
- Creativity & Craft (Transforming ideation to reality by hand on craft)
